

Live Streaming Partnership Information

The PJHL has entered a five (5) year agreement with Hockey Technology Partners LLC (HTP) to provide a live streaming service of all PJHL games. HTP is working with Pixellot who is coordinating the installation of cameras in the venues.

Cameras will only record the playing surface and will only be turned on to capture the warmup and the game. Once the game ends the camera is off. The PJHL has all of our player sign a Player Agreement which has a section in it that allows for the use of their image in pictures, websites, video and live streaming.

Games will be streamed through PJHLTV.ca and will also be used for coaching and administration of the league.

The PJHL is the customer in the agreement. Hockey Technology Partners LLC is the service provider and the owner of the cameras. Pixellot is the camera company that is working on the installations.

If there are specific questions about the service or cameras, please direct them to the following:

Installations:

- Nick Swanson, Pixellot NickS@Pixellot.tv
- Bryan Deasley, Pixellot deasley@pixellot.tv
- Colby Scurlock Adamson colbya@pixellot.tv

Hockey Technology Partners LLC:

- Marc Ruskin, President mruskin@xyio.com
