

The Corporation of the Town of Tecumseh

January 10, 2020

Honourable Jeff Yurek
Minister of the Environment, Conservation and Parks
College Park 5th Floor
777 Bay Street, Toronto, ON
M7A 2J3

Dear Mr. Yurek:

Re: Climate Change Emergency Declaration

The Council of the Town of Tecumseh, at its regular meeting held Tuesday, December 10, 2019, gave consideration to Report CAO-2019-12 entitled "Climate Change Emergency Declaration", a copy of which is enclosed.

At the meeting, Tecumseh Council passed the following resolution: (RCM 390/19)

Whereas the most recent report by the UN Intergovernmental Panel on Climate change (IPCC) has indicated that within less than 12 years, in order to keep the global average temperature increase to 1.5 degrees Celsius and maintain a climate compatible with human civilization, there must be a reduction in carbon emissions of about 45% from 2010 levels, reaching net zero carbon emissions by 2050; and

Whereas based on current projections of the future impacts of human caused climate change, climate change will adversely impact Windsor-Essex's local economy, damage local infrastructure and property, put a strain on municipal budgets and result in significant economic and health burdens for the constituents of Windsor-Essex, particularly our vulnerable populations; and

Whereas climate change will jeopardize the health and survival of many local plant and animal species, as well as their natural environments and ecosystems; and

Whereas Windsor-Essex is already experiencing large and increased climate change impacts, including but not limited to overland flooding, heavy rain event flooding, emergence of invasive species, an increased number of high heat days, the rise of vector borne diseases, the re-emergence of blue-green algae and harmful algal blooms in our lakes and rivers; and

Whereas municipalities are understood to produce and/or have regulatory jurisdiction over approximately 50% of carbon emissions in Canada; and

Whereas the County of Essex joins the Government of Canada and 444 Canadian municipalities (including Vancouver, Ottawa, Montreal, and 18 other Ontario municipalities, among them Chatham-Kent, Sudbury, Sarnia, Guelph, and Kingston) that have declared climate emergencies, some of which are also implementing strategic plans in order to help reduce global carbon emissions and mitigate the impacts of climate change; and

Whereas the City of Windsor, the Essex Region Conservation Authority (ERCA) and the Windsor Essex County Health Unit (WECHU) are committed to and currently undertaking city and regional climate change planning, encompassing both mitigation and adaptation, in partnership with others; and

Whereas the County of Essex, the Essex Region Conservation Authority (ERCA), local municipalities in Essex County, in partnership with other community stakeholders, are undertaking a Regional Community Energy Plan to assist the County of Essex and local municipalities to align with provincial and federal energy policies and programs; and

Whereas this emergency is an opportunity to bring together County, City and Local municipal governments, as well as regional stakeholders to work together on climate change planning and implementation with the aim of protecting our region and contributing to greater national and global climate change response; and

Whereas implementing climate action and making a transition to a low-carbon economy also represents a significant opportunity to stimulate economic growth, increase job opportunities and develop new technologies;

Therefore be it resolved that the Council of The Corporation of The Town of Tecumseh declare a Climate Emergency in the knowledge that this is an emergency with no foreseeable conclusion which will require robust and permanent changes in how municipalities conduct their business;

And that in response to this emergency, the need to reduce overall emissions from the Town of Tecumseh as well as continue to prepare for Windsor-Essex County's climate future are deemed to be high priorities when considering budget direction and in all decisions of Council;

And further that the Town Administration be directed to identify priority action items, implementation measures and cost requirements for those programs and services it is responsible for, to accelerate and urgently work towards the reduction of emissions and preparing for our climate future.

Carried"

Please consider this letter as confirmation of the Town of Tecumseh's action on the above matter.

Yours very truly,

Laura Moy, Dipl.M.M., CMMIII HR Professional
Director Corporate Services & Clerk

The Corporation of the Town of Tecumseh

Chief Administrative Officer

To: Mayor and Members of Council
From: Margaret Misek-Evans, Chief Administrative Officer
Date to Council: December 10, 2019
Report Number: CAO-2019-12
Subject: Climate Change Emergency Declaration

Recommendations

It is recommended:

Whereas the most recent report by the UN Intergovernmental Panel on Climate change (IPCC) has indicated that within less than 12 years, in order to keep the global average temperature increase to 1.5 degrees Celsius and maintain a climate compatible with human civilization, there must be a reduction in carbon emissions of about 45% from 2010 levels, reaching net zero carbon emissions by 2050; and

Whereas based on current projections of the future impacts of human caused climate change, climate change will adversely impact Windsor-Essex's local economy, damage local infrastructure and property, put a strain on municipal budgets and result in significant economic and health burdens for the constituents of Windsor-Essex, particularly our vulnerable populations; and

Whereas climate change will jeopardize the health and survival of many local plant and animal species, as well as their natural environments and ecosystems; and

Whereas Windsor-Essex is already experiencing large and increased climate change impacts, including but not limited to overland flooding, heavy rain event flooding, emergence of invasive species, an increased number of high heat days, the rise of vector borne diseases, the re-emergence of blue-green algae and harmful algal blooms in our lakes and rivers; and

Whereas municipalities are understood to produce and/or have regulatory jurisdiction over approximately 50% of carbon emissions in Canada; and

Whereas the County of Essex joins the Government of Canada and 444 Canadian municipalities (including Vancouver, Ottawa, Montreal, and 18 other Ontario municipalities, among them Chatham-Kent, Sudbury, Sarnia, Guelph, and Kingston) that have declared climate emergencies, some of which are also implementing strategic plans in order to help reduce global carbon emissions and mitigate the impacts of climate change; and

Whereas the City of Windsor, the Essex Region Conservation Authority (ERCA) and the Windsor Essex County Health Unit (WECHU) are committed to and currently undertaking city and regional climate change planning, encompassing both mitigation and adaptation, in partnership with others; and

Whereas the County of Essex, the Essex Region Conservation Authority (ERCA), local municipalities in Essex County, in partnership with other community stakeholders, are undertaking a Regional Community Energy Plan to assist the County of Essex and local municipalities to align with provincial and federal energy policies and programs; and

Whereas this emergency is an opportunity to bring together County, City and Local municipal governments, as well as regional stakeholders to work together on climate change planning and implementation with the aim of protecting our region and contributing to greater national and global climate change response; and

Whereas implementing climate action and making a transition to a low-carbon economy also represents a significant opportunity to stimulate economic growth, increase job opportunities and develop new technologies;

Therefore be it resolved that the Council of the Corporation of the Town of Tecumseh declare a Climate Emergency in the knowledge that this is an emergency with no foreseeable conclusion which will require robust and permanent changes in how municipalities conduct their business;

And further that in response to this emergency, the need to reduce overall emissions from the Town of Tecumseh as well as continue to prepare for Windsor-Essex County's climate future are deemed to be high priorities when considering budget direction and in all decisions of Council;

And further that the Town Administration be directed to identify priority action items, implementation measures and cost requirements for those programs and services it is responsible for, to accelerate and urgently work towards the reduction of emissions and preparing for our climate future.

Background

Recently the Council for the County of Essex passed a Climate Change Emergency Declaration, as attached to this report. In that Declaration, the final paragraph urges the local municipalities in Essex County to adopt a similar declaration, as an endorsement. The City of Windsor made its declaration of climate change emergency on November 18th and the Essex Region Conservation Authority (ERCA) endorsed the resolution at its most recent meeting. Hundreds of Canadian municipalities, including neighbouring Chatham-Kent have passed similar declarations.

Comments

The endorsement of such a declaration is in keeping with Council's strategic priorities to make Tecumseh a better place to live, work and invest, to ensure that the Town's current and future growth is built upon the principles of sustainability, to integrate the principles of health and wellness into all of the Town's plans and priorities and to demonstrate a leadership role in the community.

The recent initiative to partner with the County and the area municipalities and ERCA to co-create a Community Energy Plan is among the primary steps taken by the Town to mitigate climate change, create economic efficiencies and improve energy performance. Policy and program initiatives are already underway to address climate change including a climate action policy framework in the new Official Plan, the new Storm Water Management Standards, the Flood Emergency Preparedness Plan, with associated Action Plan and the Tecumseh Storm Drainage Master Plan. Additional work is planned that aligns with the final paragraph of the resolution directing Administration to identify priority action items, implementation measures and costs to accelerate efforts to prepare for our climate future.

Financial Implications

The financial implications associated with studies, plans and the implementation of recommended actions will be provided to Council as part of the annual operating and capital budgeting process. There are no immediate financial implications associated with making the declaration.

Link to Strategic Priorities

Applicable	2019-22 Strategic Priorities
☒	Make the Town of Tecumseh an even better place to live, work and invest through a shared vision for our residents and newcomers.
☒	Ensure that Tecumseh's current and future growth is built upon the principles of sustainability and strategic decision-making.
☒	Integrate the principles of health and wellness into all of Tecumseh's plans and priorities.
☐	Steward the Town's "continuous improvement" approach to municipal service delivery to residents and businesses.
☒	Demonstrate the Town's leadership role in the community by promoting good governance and community engagement, by bringing together organizations serving the Town and the region to pursue common goals.

Moved by: Councillor McKenzie
Seconded by: Councillor Kaschak

Decision Number: **ETPS 715**

THAT report no. 105 of the Windsor Essex County Environment Committee – Climate Change Emergency Declaration indicating:

THAT the following Climate Change Emergency Declaration prepared by the Air Subcommittee of the Windsor Essex County Environment Committee BE APPROVED:

WHEREAS the most recent report by the UN Intergovernmental Panel on Climate change (IPCC) has indicated that within less than 12 years, in order to keep the global average temperature increase to 1.5 degrees Celsius and maintain a climate compatible with human civilization, there must be a reduction in carbon emissions of about 45% from 2010 levels, reaching net zero carbon emissions by 2050; and

WHEREAS based on current projections of the future impacts of human caused climate change, climate change will adversely impact Windsor-Essex's local economy, damage local infrastructure and property, put a strain on municipal budgets and result in significant economic and health burdens for the constituents of Windsor-Essex, particularly our vulnerable populations; and

WHEREAS climate change will jeopardize the health and survival of many local plant and animal species as well as their natural environments and ecosystems; and

WHEREAS Windsor-Essex is already experiencing large and increase climate change impacts including but not limited to overland flooding, heavy rain event flooding, emergence of invasive species, an increased number of high heat days, the rise of vector borne diseases, the re-emergence of blue-green algae and harmful algal blooms in our lakes and rivers; and

WHEREAS municipalities are understood to produce and/or have regulatory jurisdiction over approximately 50% of carbon emissions in Canada; and

WHEREAS the City of Windsor join the Government of Canada and 444 Canadian municipalities (including Vancouver, Ottawa, Montreal, and 18 other Ontario municipalities, among them Chatham-Kent, Sudbury, Sarnia, Guelph, and Kingston)

that have declared climate emergencies, some of which are also implementing strategic plans in order to help reduce global carbon emissions and mitigate the impacts of climate change; and

WHEREAS the City of Windsor, the Essex Region Conservation Authority (ERCA) and the Windsor Essex County Health Unit (WECHU) are committed to and currently undertaking city and regional climate change planning, encompassing both mitigation and adaptation, in partnership with others; and

WHEREAS this emergency is an opportunity to bring together County, City and Town governments as well as regional stakeholders to work together on climate change planning and implementation with the aim of protecting our region and contributing to greater national and global climate change response; and

WHEREAS implementing climate action and making a transition to a low-carbon economy also represents a significant opportunity to stimulate economic growth, increase job opportunities and develop new technologies;

THEREFORE BE IT RESOLVED that the City of Windsor declare a Climate Emergency in the knowledge that this is an emergency with no foreseeable conclusion which will require robust and permanent changes in how the City and County conduct their business; and further,

THAT in response to this emergency, the need to reduce overall emissions from the City of Windsor and the County of Essex as well as continue to prepare for Windsor-Essex County's climate future are deemed to be high priorities when considering budget direction and in all decisions of council; and further,

THAT the City of Windsor administration BE DIRECTED to prepare reports for consideration by their respective Councils within 90 days containing recommendations for priority actions items, implementation measures and cost requirements to accelerate and urgently work towards the reduction of emissions and preparing for our climate future.

BE APPROVED; and further,

THAT the County of Essex **BE REQUESTED** to consider adopting the resolution as outlined above.

Carried.

**RE: Report No. 105 of the Windsor-Essex County Environment Committee – Climate Change
Emergency Declaration**

The Essex Region Conservation Authority strongly supports the proposed climate emergency declaration by the Windsor-Essex County Environment Committee for the City of Windsor and County of Essex.

In 2019 alone, our region has experienced first-hand the impacts of warmer, wetter and wilder effects of climate change. Record high water levels in Lake Erie and Lake St. Clair, which resulted in closures of roads and facilities, parks and conservation areas, placed our region under flood watch for 189 days and caused flooding throughout the region and our shorelines.

These challenges follow successive years of intense rain events in 2016 and 2017 that resulted in over 9,000 reports of flooding and hundreds of millions of dollars in insured losses. Significant spring rainfall severely disrupted crop cycles and associated farm revenues. Changes in weather patterns have resulted in annual reoccurrence of harmful algal blooms in Lake Erie and, more recently, Lake St. Clair. New vector borne diseases are being found in our region.

Both the evidence and the science are very clear that the impacts of climate change are very apparent, perhaps here more than anywhere else in Ontario. Our municipalities are at the front line of much climate damage and are taking steps to address impacts of climate change through mitigation and adaptation – investing in infrastructure, strengthening flood and emergency response plans, undertaking shoreline management and hazard mapping, supporting community energy planning, building active and alternative transportation options, and reviewing planning tools to ensure they reflect provincial policies and local climate realities.

With this declaration, our municipalities recognize that these 'permanent and robust changes' can best be achieved through partnerships and collaboration. The Windsor Essex Climate Change Collaborative, formed earlier this year, commits the Essex Region

Conservation Authority to support our municipalities as they prepare for the future climate and we are looking forward to working with the City, County and municipalities to develop action plans that reflect both the steps we are taking today, and the actions we need to take in the future.

ERCA is dedicated to sustaining and enriching the environment of the Windsor-Essex-Pelee Island region to ensure it continues to be the Place for Life in the face of these immense environmental challenges.
