

Notice of Motion submitted by Councillor Walstedt Re: Sandbags for Area Flooding

MOTION

Whereas, record high Great Lakes' water levels have already exceeded the record high levels of 2019 and are expected to rise even further and

Whereas the municipality wishes to provide assistance to home and business owners who will most certainly experience flooding from these increased lake levels in 2020 and

Whereas the Town of Tecumseh has a portable multi sandbag filling machine that initial discussions with the Town indicate Lakeshore may be able to share in its use

Therefore be it resolved that Lakeshore contact the Town of Tecumseh as soon as possible to negotiate such use which would enable Lakeshore to have a large supply of filled sandbags available for residents should flooding of properties take place this year
