

Petition

The Municipality of Lakeshore received the following petition on June 9, 2024:

“Urge Local Authorities to Expedite the Construction of the Town of Lakeshore Park”

The petition included approximately 64 electronic signatures.

Note: this was an online petition (through the website change.org) therefore Administration is unable to verify the authenticity of the enclosed signatures.

The applicant has requested that the following information be included for context, but was not part of the petition:

“The development of the park/parkette as written in the town of lakeshore subdivision agreement, for the new subdivision located at Wallace Line Rd and Old Tecumseh Rd in Ward 2. This is now very concerning to all neighbors whom now live in this new subdivision; whom were told a park would be constructed, but now are being told this won't come to fruition until Phase 2B of the development is complete, which could be 2, 3, 5 years, if not longer, and whom most have signed the attached petition urging the Town of Lakeshore to expedite the construction of the park.”
