

Appendix 2: Complaints by Project

The following table summarizes the information on the complaint records provided in response to a series of four Freedom of Information requests. In total, the information released indicates that more than 5,800 complaints have been made about the operations of wind turbine projects between 2006 and 2018. (The requests for information covering 2019 and 2020 are outstanding. The fact the government does not have rapid access to these records to fulfill FOI requests is proof that citizen complaints are going nowhere, and are not subject to any high level scrutiny.)

Communications from residents indicate that when there is no follow-up action on complaints, people just give up and stop complaining. This does not mean that the problems have been resolved. Actual follow-up on high profile situations could encourage many residents to start documenting their concerns and reports of poor health again.
