Re: Completed Application for Demolition Request - 7119 Tecumseh Rd, Church
of Annunciation in Stoney Point

The Municipality has received all documents per the motion made by the Heritage Advisory Committee on June 3, 2020, stating, "That the applicants present back to this Committee a Heritage Impact Study or Assessment, to inventory the historical items that might be salvageable; and that the applicants also provide an amended engineer's report, detailing what the cost would be to bring the church to a salvageable and safe condition".

The Municipality has also received all documents requested in the Notice of Decision to Refuse, which states that Lakeshore Town Council on June 23rd, 2020 passed a resolution to refuse the application to demolish the Church of the Annunciation in the Community of Stoney Point, due to a lack of information, and should the applicant decide to re-apply, re-apply with the economic and heritage impact assessment required to fully assess the merits of the application.

The Heritage Advisory Committee made a motion that deemed the application for demolition complete.
