Re: **Zoning By-law Amendment (ZBA-22-2021)**
8225 Essex Kent Road
Part Lot 21; Concession 8
Municipality of Lakeshore

Please be advised that the above-mentioned application has been reviewed by this office and we have no objections to this proposal. The Authority is responsible for addressing the Natural Hazard Section of the Provincial Planning Policy Statement as well as the Conservation Authority's Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation, O. Reg. 152/06 under the Conservation Authorities Act. After reviewing our files and mapping, staff determined that the property in question is subject to the Authority's Development and Alteration to Watercourses portion of the regulations. The issue of concern in this area is the Robert Drain and erosion.

An application from this office is required prior to any works/construction taking place within the regulated area. The lands are not subject to flooding of a general nature and therefore the flood proofing of structures on the property is not required. However, the flood proofing of structures for the purposes of prevention of flood damage from local drainage waters is always recommended. Setbacks from the drain will be required to any proposed works / structure(s) / site alteration.

Please be advised that the subject property is located in an area with an Event Based Area [EBA] and an Intake Protection Zone [IPZ] as identified through the Lower Thames Valley Assessment Report in the Thames, Sydenham and Region Source Protection Region. For further information regarding this matter and how it may affect any proposed development please refer to the Thames, Sydenham and Region Source Protection website at www.sourcewaterprotection.on.ca.

I trust this is satisfactory, but if you should have any questions, or require more information, please call the office.

Yours truly

Connor Wilson
Planner
