

## **Notice of Motion submitted by Councillor Kerr regarding Light Trespassing**

Whereas members of the community have been complaining about the lack of privacy related to scattered or excessive lighting on properties, including residential properties;

And recent lighting technology improvements related to the use of L.E.D.'s have contributed to lighting being much brighter and obtrusive;

And whereas security light fixtures create a condition where there is no control over when the lights are on or off;

And whereas Lakeshore current by-laws do not address this problem;

Now be it resolved that the issue of scattered or excessive lighting on properties be referred to administration to:

1. Investigate regulatory options; and
2. Assess what, if anything is being done in other communities; and
3. What standards could be applied to address this issue.
